

FIN 373: Policy Research Laboratory

Fall 2023

Class Time: Tuesday + Thursday, 9:30a - 11:00a

Classroom: CBA 6.420

TA session: Please reference our course website

Course webpage: <https://github.com/dpuelz/Policy-Research-Laboratory>

Instructor: David Puelz

Email: david.puelz@mcombs.utexas.edu

Office: GSB 5.136

Office hours: Tuesday + Thursday, 11:00a - 11:45a

Course Description and Objectives

The Policy Research Laboratory (PRL) is a semester-long course in statistics, econometrics, and data science to learn the tools necessary for policy and social science research. In parallel, the students will apply these tools to real-world data and answer crucial policy questions. Policy research is important, and appropriately using data, cutting-edge statistical tools and remaining skeptical are equally important. Students can expect to leave this class with a deep understanding of policy questions and a toolbox for evaluating them.

Required Textbooks

Quantitative Social Science (QSS) – Kosuke Imai

Mastering 'Metrics (MM) – Joshua Angrist et al.

Homework

Exercises will be assigned each Monday and due the following Tuesday. Please submit a pdf knitted from an **Rmarkdown** file with your solutions to canvas. The exercises will be graded on a scale from 1 to 5. The grading criteria are:

- Did you make an honest, concerted attempt at each problem?
- Did you attempt to address all parts of the question?
- Did you include enough detail on what you actually did so that a well-informed reader could understand your analysis in detail? (You won't receive full credit if it's not clear what steps you actually took in your analysis.)
- Did you include properly annotated figures/tables where appropriate?
- Did you write up your solution professionally, with an actual narrative flow (good), or did you just copy and paste a bunch of R code without much in the way of explanation (bad)?
- Did you use sensible procedures to answer a given question?
- Did you make any significant technical mistakes?

Research Project

There will be a final research project where groups of up to three students either (i) replicate the results of an existing policy paper, or (ii) analyze their own data on a policy relevant topic. In both cases, groups should talk with David on ideas and settle on either a paper replication or novel policy data analysis by **October 25th**. The deliverables will be a brief class presentation (15 minutes) of research findings as well as a comprehensive write-up. The write-up should be structured like an academic paper. More details about expectations and grading criteria for the research projects will be provided later in the semester.

Evaluation

The class grade is comprised of the following:

- Homework (20%). Lowest one is dropped.
- Midterm (30%)
- Research Project (40%)
- Engagement (10%). How often did you participate in class and contribute to class discussion? This portion of the grade will also reflect your attendance at Salem Center events that occur throughout the semester.

Topics and Timing

Below is a timeline for the semester. It is subject to change as we make our way through these topics. Please also pay attention to the course website. I will include supplemental readings beyond those in our textbooks.

Date	Topics	Reading
Week 1 (Aug 22, Aug 24)	Intro & R	QSS 1.3-1.4
Week 2 (Aug 29, Aug 31)	R + Causality	QSS 2.1-2.3, MM Intro
Week 3 (Sep 5, Sep 7)	Causality	QSS 2.4-2.7, MM 1.1
Week 4 (Sep 12, Sep 14)	Probability	QSS 6.1-6.3
Week 5 (Sep 19, Sep 21)	Probability + Prediction	QSS 4.1
Week 6 (Sep 26, Sep 28)	Prediction	QSS 4.2, MM 2.1
Week 7 (Oct 3, Oct 5)	Prediction	QSS 4.3, MM 2.2
Week 8 (Oct 10, Oct 12)	Unsupervised learning (clustering)	QSS 3.7
Week 9 (Oct 17, Oct 19)	Unsupervised learning (PCA)	
	+ midterm (10/19)	see website
Week 10 (Oct 24, Oct 26)	Unsupervised learning (networks)	QSS 5.2
Week 11 (Oct 31, Nov 2)	Unsupervised learning (text)	QSS 5.1
Week 12 (Nov 7, Nov 9)	Heterogeneous causal effects	see website
Week 13 (Nov 14, Nov 16)	How to do research	
	+ Project presentations	see website
Week 14 (Nov 21, Nov 23) <i>Thanksgiving week</i>		–
Week 15 (Nov 28, Nov 30)	Project presentations	–

Students with Disabilities

Upon request, the University of Texas at Austin provides appropriate academic accommodations for qualified students with disabilities. Services for Students with Disabilities (SSD) is housed in the Office of the Dean of Students, located on the fourth floor of the Student Services Building. Information on how to register, downloadable forms, including guidelines for documentation, accommodation request letters, and releases of information are available online at [here](#). Please do not hesitate to contact SSD at (512) 471-6259, VP: (512) 232-2937 or via e-mail if you have any questions.

Harassment Reporting Requirements

Senate Bill 212 (SB 212), which went into effect as of January 1, 2020, is a Texas State Law that requires all employees (both faculty and staff) at a public or private post-secondary institution to promptly report any knowledge of any incidents of sexual assault, sexual harassment, dating violence, or stalking “committed by or against a person who was a student enrolled at or an employee of the institution at the time of the incident.” Please note that both the instructor and the TA for this class are classified by SB 212 as mandatory reporters. That means we MUST share with the Title IX office any information about sexual harassment/assault that is shared with us by a student—whether in-person, via electronic communication, or as part of any class assignment. Note that a report to the Title IX office does not obligate a victim to take any action, but this type of information CANNOT be kept strictly confidential except when shared with designated “confidential employees.” A confidential employee is someone a student can go to and talk about a Title IX matter without triggering any obligation by that employee to have to report the situation so that it will be investigated. A list of confidential employees is available on the Title IX website. The professor and TA for this class are NOT designated confidential employees per SB 212.
